

INDIAN FRESHER RESUME SELF-AUDIT

FREE MVP v0.1

20-POINT AUDIT

Pass / Fail Quality Verification Protocol • Run This Complete Audit Before Submitting Any Off-Campus Application

#	Category	Audit Verification Criteria	Status
1	Contact Info	Professional Email ID: Uses standard firstname.lastname format. No unprofessional nicknames or slang handles.	☐
2	Contact Info	Valid Phone & City: Active mobile number with +91 country code; City and State listed without full door/street address.	☐
3	Digital Links	Working LinkedIn Profile: Clean, custom URL included and verified to open properly without 404 error.	☐
4	Digital Links	Working GitHub / Portfolio: Links to active account with clean READMEs, pinned repositories, and actual code.	☐
5	Section Order	Logical Hierarchy: Contact Header → Education → Technical Skills → Projects → Experience → Achievements.	☐
6	Education	Degree & Batch Explicit: Full degree name, branch/specialization, college name, and expected passing month & year clearly stated.	☐
7	Education	Transparent CGPA/Percentage: CGPA stated with scale (e.g. 8.4 / 10.0) or percentage. Class 12 & 10 listed in 1 line each.	☐
8	Technical Skills	Categorized Skills: Grouped logically by Languages, Frameworks, Tools, and Core CS Fundamentals (no unorganized tag soup).	☐
9	Technical Skills	Defensibility Test: Every single technology listed is one you have written code in and can answer interview questions on.	☐
10	Projects	At Least 2 Real Projects: Projects clearly identify technologies used, repo links, and what problem was solved.	☐
11	Project Bullets	Formula Adherence: Bullets follow [Action Verb] + [Technical Context / Architecture] + [Outcome / Metric].	☐
12	Project Bullets	No Passive Descriptions: No passive phrases like "Was responsible for" or "Worked on"; replaced with active verbs like <i>Engineered</i> , <i>Developed</i> .	☐
13	Layout & Structure	Strict Single-Column: Linear flow from top to bottom. Zero 2-column splits, floating text boxes, or graphic sidebars.	☐
14	Layout & Structure	No Layout Tables: Tables are not used to structure text columns (as multi-column table layouts can cause text-order or parsing issues in some ATS systems).	☐
15	Typography	Clean Universal Font: Standard readable font (Calibri, Arial, or Times), 10–11pt body text, consistent line spacing.	☐
16	Page Budget	Strict 1-Page Rule: The resume fits completely on exactly 1 page with no orphan 2nd page containing 3 stray lines.	☐
17	Text Selectability	Ctrl+A Text Copy Test: Pressing Ctrl+A on the PDF selects clean ASCII text; pasting into Notepad pastes readable words.	☐
18	De-Clutter Check	Zero Biodata Relics: No Father's name, photo, marital status, full home address, or formal declaration paragraph.	☐
19	Tailoring Check	JD Keyword Alignment: The 3–5 core technical keywords required in the target JD are accurately reflected in your genuine skills.	☐
20	File Naming	Professional File Name: Saved as FirstName_LastName_Resume.pdf (NOT resume_updated_final(1).pdf).	☐

Pass Standard: You should achieve **20 / 20** before submitting off-campus. If any point fails, fix it immediately in your source .docx file and re-export.
